CinéOle

THE HIGH DEFINITION SOUND FOR YOUR SCREEN

Easy use

Switch your screen on, select the source, CinéOle turns on automatically and the Cabasse sound fills the room. Adjust the volume and enjoy the show. CinéOle will gently switch to stand-by once you turn your TV off.

High performance Cabasse co-axial technology

CinéOle features the same principles and the same technological innovations as the Cabasse high end systems, award winning references worldwide. Designed, assembled and controlled with the very same extreme demands, CinéOle will reveal the original intensity and drama of your favourite programmes, music and movies, at either high or low volumes. Use it at any time without moderation or saturation.

Easy installation

From the set of foolproof interconnect cables to the wall mount device, everything is included for easy and safe set up. The magnetic interface of the bases allows easy orientation of the satellites in every direction, either for bookshelf or for on wall use. Unpack, plug-in and enjoy.

Universal remote control

Control image and sound with one sole remote control. Signed Cabasse CinéOle, it drives your screen as well as all associated sources.

Break the high definition sound barrier.

High quality glossy finish

Bases and wall brackets included
